

Crime Prevention Tips:

As a homeowner, there are a few easy steps you can do at your home to reduce the likelihood of residential burglary including:

- STAY ALERT and tuned-in to your surroundings.
- Never open the door to strangers, and always insist on proper identification.
- If someone comes to your door with an emergency don't let him or her in, but call 9-1-1 for them!
- Protect windows and other points of entry with good locks or other security devices that prevent a window or sliding glass door from opening.
- When you go out, prepare your home to sound and appear occupied by using an automatic timer to turn on interior lights and a radio. Keep the outside premises well lit at night.
